

ANNOUNCEMENT

September 21, 2021

This is to inform our members that your management will be continuing the **Zoysia infusion program** in the fairways of our South Course. The said program, which was approved by the then Board of Directors last January 9, 2019, will infuse 1000 sq. meters of Zoysia sods per month for 12 months. We will restart this program on **September 22, 2021**.

To date only 2000 sq. meters has been embedded. The remaining 10,000 sq. meters will soon be planted in the period of 10 months or hopefully sooner. A different methodology will be implemented. Instead of planting Zoysia in several small areas of the fairways, we will instead place Zoysia in the landing areas of all par 4s and par 5s. We will also include planting Zoysia on the approaches of the four par 5s.

The main source of our Zoysia sods is our nursery, but if we exhaust that supply, we will purchase more from reliable sources to hasten the implementation of this project.

A **temporary inconvenience** by members will be experienced during sodding, but management is very confident that improved South course fairways will be realized after the completion of this program, thereby serving the general interest of our membership better.

Thank you.

ANNOUNCEMENT

September 16, 2021

Our maintenance team is currently applying herbicide on certain areas of our South course fairways. This process is being done to get rid of the carabao grasses/weeds that infiltrated the Zoysia* sods, which were planted in the past. Dry spots and color discoloration will be noticeable in the coming days, but recovery is expected the soonest. Improvement of our fairways is expected after this process together with your club's plan to continue infusing more Zoysia* sods particularly in the landing areas of the South course fairways.

Thank you.

*Zoysia forms a dense cover that can compete against weed pest such as goose grass, nutsedge and carabao grass. Even when silted, Zoysia will allow your ball to roll more thus making playability more desirable. It can tolerate partial shade and endemic in our country. It is readily available and not expensive. To name a few, Tagaytay Highlands and Anvaya courses have Zoysia on their fairways.

ADVISORY

Effective Friday, **October 1, 2021**, the following adjustments on tee time booking and golf policies shall be implemented:

1. Only Primary members, their qualified dependents (18 years old and above) and dependents below 18 years old but accredited by the NGAP are allowed to book tee times.
2. Member's Guests shall only be accommodated in our South Course by 1:00 pm onwards during weekends and holidays. Guest bookings in our South Course before 1:00 pm on weekends and holidays shall be automatically cancelled. However, guests are allowed to be booked and to play in our North Course at anytime on weekends and holidays.
3. Tee time cancellation must be no later than 1:00 pm a day before a scheduled game. Should a player cancel after that time the member making the booking shall be subjected to penalty charges.

These adjustments are being done to accommodate the huge demand for tee times from members on weekends and holidays during this time of the pandemic.

Thank you and be safe.
